Circuit Court, which has been in session at Hardinsburg for mearly three weeks, will probably close out on Thursday. Judge R. W. Slack, of Owensboro, who has been acting as special judge for the term, has handled the business with dispatch, and yet so many cases had crowded up on the docket that it has taken about all the term to get it threshed out. Judge Slack has shown the wisdom of a interm to get it threshed out. Judge Slack has shown the wisdom of a wise and discreet judge in the way he has decided cases and made rulings from the bench. Both litigants and attorneys have been satisfied with his decisions. The Judge's long and active experience as a practitioner at the bar has given him a clear insight into fixed legal principles.

Sherman Ball, formerly of Hardinsburg, has been appointed Assistant Secretary of State by Dr. Bruner, Secretary of State. Word comes from Frankfort that Gov, Willson did not want Mr. Ball appointed to this place, not that he had any objections to the Breeken ridge chap, but he wanted to name the Assistant Secretary and give the place to another young Republican. Mr. Ball is to be congratulated on holding so securely such a field thing as a political favor. We are glad for him because he is from Breckenridge.

It is good to have a friend that sticketh closer than a brother and this is true of J. W. Newman, who was re-elected Secretary of the State Fair for a four-year term. James L. Dent cast the deciding vote for Mr. Newman, instead of voting for his brother, Emory Dent, because he had pledged his word to vote for Mr. Newman. If a man can win such a vote it is a certainty that he will be able to make a great, successful State Fair.

The county, and especially the community around Garfield, has lost quite a useful and successful business man in the death of Mr. A. Richardson, of that place last Sunday morning. Mr. Richardson was 56 years old, and had been in business at Garfield continuously for the last thirty years.

who charged you just as muon accumore than you paid for the same goods before.

One of the subjects upon which the politician creates prejudics against the railroads is the so-called burden blaced upon the people through the overissuance of securities. Two hundred and forty million dollars a year is 4 per cent. on \$0,000,000,000, which is 43 per cent. or \$0,000,000,000, which is 43 per cent. of \$0,000,000,000 a year to the calculation of the railroads of the United States. This extra profit of \$240,000,000 a year to the dealers is just as great a burden as if paid for legitimate increase of capitalization used in new construction and improvement of train service to handle your business, only it is paid out in a different form. The thing the railroad and the consumer are jointy interested in is the fact that under live of the control of the comparatively few of the country's population who live on the profits between the producer and the consumer, and all they get through freight reductions is that much added to their profits.
